

The Best Keeps Getting Better

Introducing the Next Generation

Lynx2 CustomFit[®] Splice-on Connector

**The New Choice in Customized
Fiber Termination: SC, LC, and FC**

**Sumitomo's Commitment to Continuous Innovation has Resulted
in the Most Reliable Splice Connector on the Market Today:**

- Unprecedented accuracy and reliability in customized field termination
- New Lynx2 design eliminates crimping
- Fast and easy screw-on collar secures Kevlar and jacket
- No high priced crimping tools
- Cross-compatible with all SC, LC, FC connectors
- Eliminates inventory and costs of splice trays and varying lengths of preterminated jumpers
- Low insertion and return losses
- Consistent and reliable results with single-mode and multimode fiber types
- No hand polishing and index matching gels
- Meets Telcordia GR-326 Standard

**IT'S A JUNGLE OUT THERE...
SO YOU GOTTA BE FAST...
AND YOU GOTTA BE TUFF!**

The Lynx2 is compatible with major splicer brands.
